Subject Index to Volume 20

Acids
astringency, hydrochloric, lactic, citric, acetic, fumaric, malic 593
Aging
taste, sensitivity, sucrose thresholds 451
Amiloride
taste, ineffective stimulus 559
taste, NaCl, Na-gluconate, KCl 37
Amines
taste organ, serotonin, epinephrine, norepinephrine, histochemistry, ultrastructure 329
Anaesthetics
olfactory receptor neurons, insects 421
Androstenone sensitivity
pemenone, sensitivity 413
Astringency
acids, hydrochloric, lactic, citric, acetic, fumaric, malic 593
Benzoic acid
sensory properties, gentisic acid, salicylic acid, *m*-hydroxybenzoic acid 393
c-*fos*
olfactory, odor, sensory stimulation, immediate-early gene, functional topography, functional mapping, coding 271
Chemoreception
olfaction, EOG, nicotine, stereoisomers, enantiomers 337
Cross-adaptation
odor, sweaty-smelling, pleasant-smelling 401
Curculin
sweet protein, activity, stability 239
EEG
odor, topographical EEG, skin conductance, valeric acid, phenylethyl alcohol 505
Electrogustometry
electrical threshold, aging, stimulus descriptors, citric acid, sodium chloride 499
Equirato Mixture Model
sweetness, intensity, aspartame/sucrose mixtures 211
Eye irritation
odor, thresholds, airborne chemicals 191
Flavor
odor, detection thresholds, methylene homologues 471
Fos/Jun (AP-1)
steroid hormone receptors, glucocorticoid receptor 251
G-proteins
olfactory epithelium, catfish 199
Garlic ingestion
odor, amniotic fluid, pregnant women 207
Gene expression
neuronal activity 249
olfactory system, programmed cell death, olfactory neuro-epithelium, mice 261
Guanylyl cyclase
taste bud, enzyme cytochemistry, cyclic GMP, rabbit 231
Gustation
NaCl, taste, aging, gerontology, signal detection, tongue sensory function 283
HIV infection
olfactory threshold, odor identification 325
Memory
odor, emotional experiences, evoked memories, paintings 517
Monellin
protein, single chain monellin, sweet protein, sweet taste 61
NaCl
taste, gustation, aging, gerontology, signal detection, tongue sensory function 283
Neuroepithelium regeneration
olfactory mucosa, vomeronasal organ, 2,6-dichlorobenzonitrile, chemical lesion, frog 433
Neuronal activity
gene expression 249
Odor
2-odor discrimination, memory, rat 183
ambient odor, lingering time, mood, health, hunger ratings 479
cross-adaptation, sweaty-smelling, pleasant-smelling 401
discrimination, olfactory bulb, temperature, multidimensional scaling, turtle 565
EEG, topographical EEG, skin conductance, valeric acid, phenylethyl alcohol 505
eye irritation, thresholds, airborne chemicals 191
flavor, detection thresholds, methylene homologues 471
garlic ingestion, amniotic fluid, pregnant women 207
interaction, comparison of models 625
memory, emotional experiences, evoked memories, paintings 517
olfactory, c-*fos*, sensory stimulation, immediate-early gene, functional topography, functional mapping, coding 271
olfactory asymmetry, odor sensitivity, absolute threshold, bag type olfactometer, nasal air flow 585
olfactory perception, odorant mixture assessment, cognitive processing 639
olfactory receptor neurons, odor transduction, G-proteins, lobster 489
thresholds, *l*-carvone, cineole, suprathreshold intensity ratings 9
Odor identification
olfactory threshold, HIV infection 325
Odor threshold
olfaction, aging, psychophysics, Spearman-Brown formula, reliability, smell UPSIT 645
Odorant-binding protein
pyrazine, thiazole, lipophilicity, flavour 601
Olfaction
chemoreception, EOG, nicotine, stereoisomers, enantiomers 337

facial response, children (5–12 years), autism, pervasive developmental disorder 47
odor threshold, aging, psychophysics, Spearman-Brown formula, reliability, smell UPSIT 645
olfactory receptor cells, antenna, sensillum, sex pheromone, moth, *Manduca sexta* 313
Olfactory
c-*fos*, odor, sensory stimulation, immediate-early gene, functional topography, functional mapping, coding 271
Olfactory epithelium
G-proteins, catfish 199
Olfactory mucosa
epoxide hydrolase, glutathione S-transferase, rat 385
neuroepithelium regeneration, vomeronasal organ, 2,6-dichlorobenzonitrile, chemical lesion, frog 433
Olfactory perception
odor, odorant mixture assessment, cognitive processing 639
Olfactory receptor neurons
anaesthetics, insects 421
odor, odor transduction, G-proteins, lobster 489
Olfactory system
gene expression, programmed cell death, olfactory neuroepithelium, mice 261
Olfactory threshold
odor identification, HIV infection 325
Pemenone
sensitivity, androstenone sensitivity 413
Pheromone
binding protein, signal transduction, photoaffinity labeling, pheromone perception, cDNA cloning, ligand specificity, recombinant protein 461
Protein
monellin, single chain monellin, sweet protein, sweet taste 61
soluble proteins, lingual protein (VEG), lachrymal protein (tear prealbumin), porcine 69
Salts
taste, NaCl, adaptation 545
Sensitivity
pemenone, androstenone sensitivity 413
Sex hormone 17α,20β-P
olfactory-mediated responses, male crucian carp 221
Soluble proteins
protein, lingual protein (VEG), lachrymal protein (tear prealbumin), porcine 69
Steroid hormone receptors
Fos/Jun (AP-1), glucocorticoid receptor 251
Sucrose
pain reducing properties, newborn humans 29
Suppression
magnitude estimation, taste, bitterness, salts, bitter-tasting compounds, interactions 609
Sweet
taste, *Sac*, *dpa*, mouse 291
Sweet protein
curculin, activity, stability 239
Sweeteners
sucrose, aspartame, perceived viscosity 441
thaumatin, PEPSCAN, sweet-taste determinants 535
Sweetness
Equirato Mixture Model, intensity, aspartame/sucrose mixtures 211
Sweetness receptor
taste, alitame, aspartame, evolution, primates 573
Taste
aging, sensitivity, sucrose thresholds 451
amiloride, ineffective stimulus 559
amiloride, NaCl, Na-gluconate, KCl 37
bitter taste, sweet taste, receptor mechanisms, transduction mechanisms, taste mixtures, mixture suppression, electrophysiology 305
discrimination, PTC solutions, solvents 299
NaCl, taste, gustation, aging, gerontology, signal detection, tongue, sensory function 283
nerve responses, sodium chloride, dietary protein level, chorda tympani nerve, SHR 345
polyvinylsiloxane, papillae, scanning electron microscopy 1
propylthiouracil tasting, threshold distributions, heritable trait, human 529
salts, NaCl, adaptation 545
suppression, magnitude estimation, bitterness, salts, bitter-tasting compounds, interactions 609
sweet, *Sac*, *dpa*, mouse 291
sweetness receptor, alitame, aspartame, evolution, primates 573
taste bud cell generation, autoradiography, chemoreceptors, mouth floor, thymidine, gustatory, birds 19
Taste bud
guanylyl cyclase, enzyme cytochemistry, cyclic GMP, rabbit 231
Taste organ
amines, serotonin, epinephrine, norepinephrine, histochemistry, ultrastructure 329
Thaumatin
sweeteners, PEPSCAN, sweet-taste determinants 535
Transcriptional regulation
dopamine stimulation, gene regulation, rat striatum 257
